Rethinking Education

bbworld.wordpress.com • 2 hours ago

With over 3,700,000 users per month, Khan Academy is transforming learning. Founder Salman Khan will provide insight into its history and evolution, and how we can rethink education.

Notes:

Opening sample video from the Khan Academy [See: Khan Academy on YouTube or the Khan

10 Entrepreneurs for Students to Learn From on Twitter

rasmussen.edu • 1 hour ago

Learning is a lifelong activity that stretches well beyond your time in college. Using social media tools like Twitter give you the opportunity to be unofficially mentored by real world business professionals while you earn your business degree. Students studying to become business professionals need to take advantage of this because at no other time in history have we have the ability to learn from successful entrepreneurs.

What It Takes to Teach in an Urban School

dianeravitch.net • 2 hours ago

Diane said: "I understand the importance of classroom management. So does every teacher. The question though is whether a militaristic approach is appropriate or necessary, and whether children who are poor and minority "need" an approach that is militaristic. I don't know the answer. I worry about having one kind of school for poor black kids and another kind of school for white suburban kids. Should schools for the

Evernote - Organization

<http://evernote.com/>

The screenshot shows the Evernote iPad app interface. The top status bar indicates 'iPad', signal strength, time '4:19 PM', and battery level '78%'. The app's navigation bar includes 'Edit', 'All notes', 'Notebooks', 'Shared', 'Tags', 'More', and a search bar 'Search notes...'. Below the navigation bar, a list of notes is visible on the left, including 'Web dev reports meeting', 'Marketing notes', and 'TECH ORIENTATION NOTES'. The selected note, 'TECH ORIENTATION NOTES', is displayed on the right. The note content includes a title 'SimpleK12's GoToWebinar Orientation Items' and four numbered sections: 1. Audio options, 2. Screen setting, 3. GoToWebinar is Screen sharing, and 4. Webinar agenda. The bottom of the screen shows a dock with icons for 'New note', a trash can, a share icon, a pencil, and a magnifying glass.

TECH ORIENTATION NOTES

SimpleK12's GoToWebinar Orientation Items

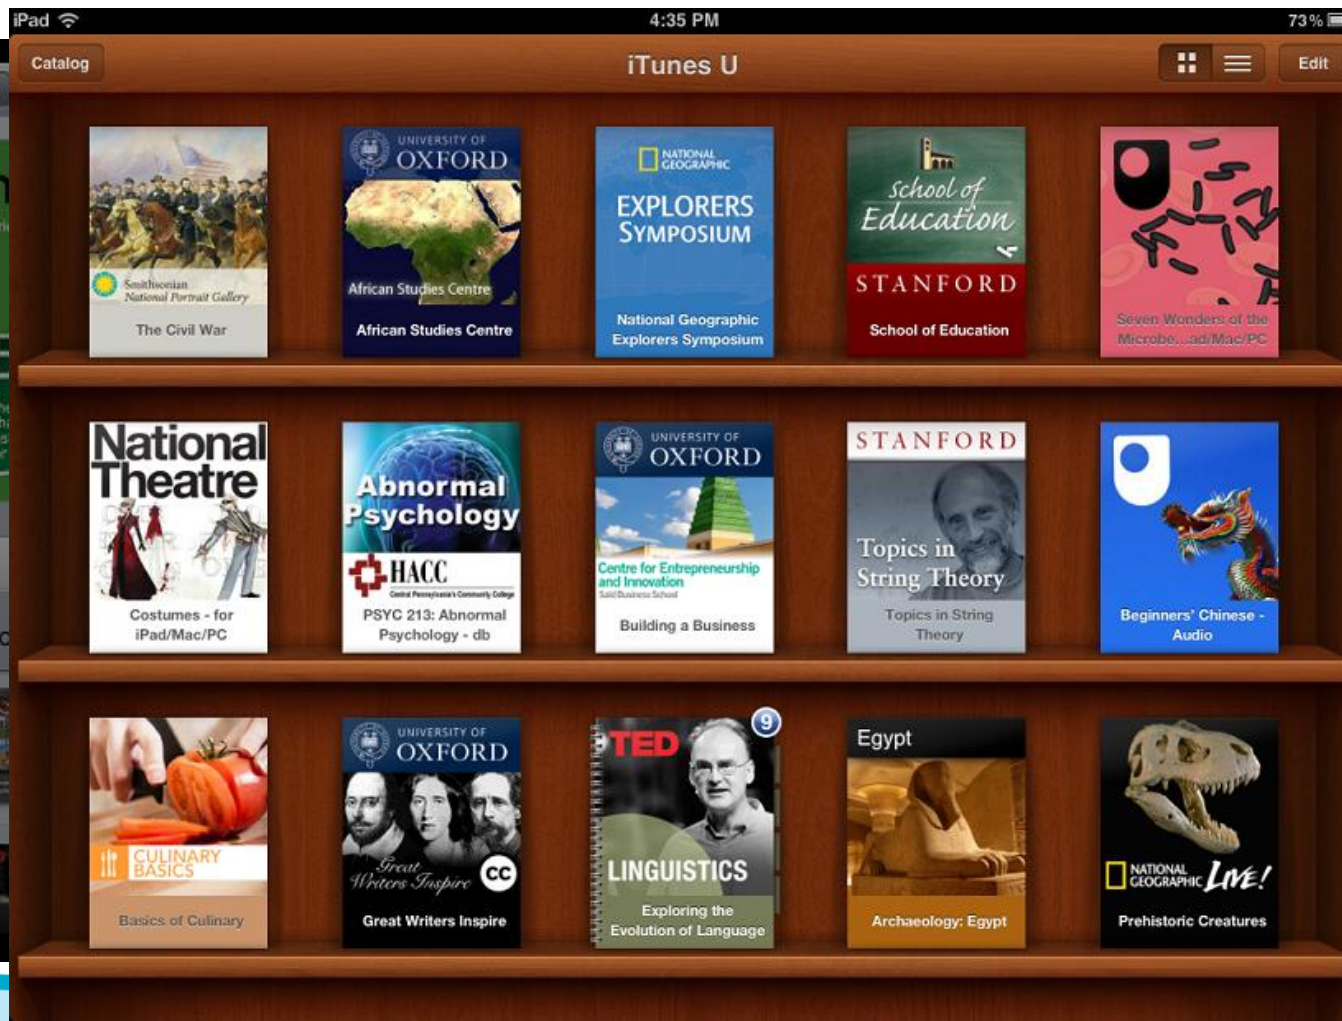

- 1. Audio options**
 - a. Headphones & mic vs. telephones
 - i. Connecting with headphones and speakers is ideal. Backup option is via telephone. Moderator and presenter MUST use headphones.
- 2. Screen setting**
 - a. Presenter must set screen resolution to 1280x700 (or closest option available, ratio will vary slightly due to different monitor & screen sizes, ex: the closest option you have on your machine may be 1200x800 or 1280x720)
 - b. Keynote: make sure you "allow Expose, Dashboard, and others to use screen"
 - i. <http://glenndcitrax.wordpress.com/2010/05/04/keynote-and-gotomeeting/>
- 3. GoToWebinar is Screen sharing**
 - a. Whatever is on your screen will share with everyone during the presentation.
 - b. The GoToWebinar panel is invisible for attendees. You can collapse or expand it with the red arrow. I recommend collapsing the panel during your presentation.
- 4. Webinar agenda**
 - a. Arrive 15 minutes early to check audio levels
 - b. What "broadcast started" means
 - i. Before broadcast has started, only organizer (SimpleK12) and Presenter can hear each other. This is the perfect time to ask any last minute questions.
 - ii. After broadcast starts, everyone can hear
 1. Say hello to the audience and give shout-outs. This part is not

1:35 So sometimes I'll write the whole
1:36 problem, sometimes I won't.
1:38 I'm going to assume that you have the textbook.
1:41 So with that said let's begin.
1:45 So the first problem, problem number one, it says, if $2x$
1:55 plus 3 is equal to 9, then what is $4x$ minus 3.
2:11 Well this is just a very basic algebra problem.
2:14 If you don't remember how to do this you should probably
2:16 review the level one and level two linear equations lectures
2:20 that I have in the algebra playlist
